SUMMARY

**Bond Indebtedness
October 1, 2019 through September 30, 2020**

The *Code of Alabama 1975*, Section 36-17-3, includes the following among the general duties of the State Treasurer:

- ◆ To pay principal and interest on the bond indebtedness of the State.
- ◆ To have custody of, and keep safe, all moneys, bonds, and other securities held in any sinking fund for the payments of bonds of the State, and to do and perform such other duties with reference to State bonds and their redemption as are now, or may be, required by law.

This report encompasses an examination of the Bond Indebtedness of the State of Alabama and its instrumentalities, for which the State Treasurer maintains the financial records, and a review of compliance with applicable laws and regulations of the State of Alabama related to bond indebtedness. This includes the review of bond principal and interest payments, investments of unspent bond proceeds, cash balances of the debt service funds, review of the receipts and expenditures, and a review of compliance of the State Treasurer's Office with applicable laws and regulations of the State of Alabama. This is done in accordance with the requirements of the State of Alabama Department of Examiners of Public Accounts under the authority of the *Code of Alabama 1975*, Section 41-5A-12. Our examination was performed for the purpose of determining whether the public officers, agents, and employees of the State Treasurer's Office properly and lawfully accounted for all money and other public assets or resources received, disbursed, or in the custody of the State Treasurer as related to Bond Indebtedness. Our examination included determining compliance by the State Treasurer with state laws and regulations that pertain to financial transactions; information dissemination, processing, and retention; and official actions, rulemaking procedures, and meetings. As a part of our examination, we also reviewed internal control policies and procedures relating to the areas listed above. Our examination did not encompass managerial and operational matters, such as whether the State Treasurer accomplished its mission or its regulatory, enforcement, investigative, or other oversight activities in an efficient, fair, timely, or legal manner.

Tests performed during the examination period did not disclose any significant instances of noncompliance with applicable laws and regulations.

COMMENTS

**Bond Indebtedness
October 1, 2019 through September 30, 2020**

The *Code of Alabama 1975*, Section 36-17-17, makes the State Treasurer the special trustee of State sinking funds for the use and benefit of the holders and owners of the State bonds or obligations for the payment of which the sinking funds were created.

The *Code of Alabama 1975*, Section 36-17-13, requires the Examiner of Public Accounts to examine cancelled bonds and coupons redeemed by the State Treasurer and compare such bonds and coupons with records maintained by the State Treasurer's Office. Immediately after such examination, the Treasurer and Examiner of Public Accounts are to destroy the cancelled bonds and coupons. Additionally, the Examiner of Public Accounts is required to certify to the destruction of such bonds and coupons. No bonds were destroyed at the conclusion of the 2020 fiscal year examination due to Covid-19 social distancing concerns.

The *Code of Alabama 1975*, Section 36-17-18, authorizes and empowers the State Treasurer, with the written approval of the Governor, to invest funds held in the State Treasury in direct obligations of the United States of America and in direct obligations backed by the full faith and credit of the State of Israel. During the 2020 fiscal year, all investments for the bond authorities held by the State Treasurer were invested in direct obligations of the United States of America.

Numerous Acts of Alabama, which establish public corporations that issue bonds also, designate the State Treasurer as the trustee for reserve funds set up to pay bond debts using debt service funds.

The following entities also use debt service or other fund types in order to account for the accumulation of resources for the payment of bond debt principal and interest on their respective bonds; however, the Treasurer's Office does not maintain the financial records of these entities. Therefore, this examination did not include the bonds issued by these entities; however, limited information is included in the Exhibits in order to present the bond indebtedness for the State of Alabama as a whole. These entities include the following:

- ◆ **Alabama Housing Finance Authority** – bonds are issued to provide funds to finance residential housing for persons and families of low to moderate income levels in the State.

- ◆ **Alabama State Port Authority** – bonds are issued for the purposes of financing capital improvements to facilities owned by the Authority.
- ◆ **Alabama Space Science Exhibit Finance Authority** – bonds have been issued to provide funds for the Space Camp Program, to construct, erect, and equip a full-size model of a Saturn V rocket at the U. S. Space and Rocket Center in Huntsville, and for renovation and improvements to the IMAX theatre component there. A portion of the bonds was also to finance the remaining 20% match for the Federal Transit Authority grant.
- ◆ **Alabama Water Pollution Control Authority** – bonds are issued for the purpose of making loans to local governmental units in the State to pay for the costs of planning, designing, acquiring, or constructing certain wastewater treatment and related facilities.
- ◆ **Alabama Drinking Water Finance Authority** – bonds are issued for the purpose of financing a program of loans by the Authority to local governmental units to pay certain costs of planning, designing, acquiring or constructing certain sanitary drinking water and related facilities eligible for financial assistance under federal law.
- ◆ **Alabama Public Health Care Authority** – bonds were issued to acquire, construct, install, equip, renovate, and refurbish public health care facilities.

The information for these above-mentioned entities was obtained from independent auditors' reports.

The following agency is included in the State of Alabama Comprehensive Annual Financial Report; however, the State Treasurer is not the trustee or paying agent for their respective bonds:

- ◆ The State Treasurer's Office also accounts for the debt service payments for the Building Renovation Finance Authority. Total debt service expenditures for the Building Renovation Finance Authority, Fund 1000 (Series 2010 Bonds) during the 2019-2020 fiscal year were \$2,566,800.00, of which \$2,110,000.00 was for principal and \$456,800.00 was for interest.

Types of Bond Debt

- ◆ **General Obligation Bonds** – pledge the full faith and credit of the State of Alabama and are payable from taxes and other general revenue sources. General obligation bond issues are authorized by Constitutional Amendments. Outstanding general obligation bonds at September 30, 2020, totaled \$645,507,902.72 net of refunded bonds.

- ◆ **Revenue Bonds** – as used by the State of Alabama, usually refers to bonds for which principal and interest payments are pledged from specific tax revenues and (or) from revenues from the operation of a public enterprise such as the State Port facility, building rental charges, and the State Farmer’s Market user charges. Another characteristic of these bonds is that they are issued by public corporations that are established by Acts of the Alabama Legislature. Bonds issued by public corporations are obligations of the corporations that are held to be separate and distinct entities from the State and do not constitute debts of the State. In most instances, state officials such as the Governor, Lieutenant Governor, Attorney General, State Treasurer, and department heads of benefiting departments serve as members of the corporations. Outstanding revenue bonds at September 30, 2020, totaled \$4,368,900,881.65 net of refunded bonds.

Advance Refunding Bonds

Bonds issued to retire an outstanding bond issue, or portion thereof, are “advance refunding bonds”. Advance refunding bonds are issued bearing interest rates that are usually lower than the interest rates on the outstanding bonds (refunded bonds). A portion of the proceeds from the sale of the advance refunding bonds is deposited with an escrow agent pursuant to an escrow trust agreement and is invested in certain United States treasury obligations in such amounts with certain maturities to provide sufficient funds to pay the remaining principal and interest on the refunded bonds as they become due. The refunded bond debt is considered to be retired for financial reporting purposes, even though the debt is still legally outstanding, and the issuer of the bonds has not been released from the debt obligation. Retirement of debt in this manner is commonly referred to as “in-substance defeasance”.

The Alabama Incentives Financing Authority (AIFA) had the following defeased bond issues at September 30, 2020:

1. AIFA Series 2012-A Bonds, for \$123,385,000; these will be redeemed on September 1, 2022.

The Alabama Federal Aid Highway Finance Authority (AFAHFA) had the following defeased bond issue at September 30, 2020:

1. AFAHFA Series 2012 Bonds for \$146,215,000; these will be redeemed on September 1, 2022.

Capital Appreciation Bonds

Capital appreciation bonds are bonds that are sold at a substantial discount and do not pay any interest until the bonds mature. Based on the original offering price, the bonds accrete (increase) in value as semi-annual interest earned is compounded from the original issuance date to the date of maturity. The issuance of capital appreciation bonds defers any cash flows until the bonds mature or are called. There are no capital appreciation bonds remaining as of September 30, 2020.

State Funds on Deposit with Fiscal Agents

To facilitate the payment of matured bond principal and interest, the State contracts with numerous financial institutions to act as the State's fiscal agents for the various bearer bond issues. When the bonds and interest coupons are redeemed, the fiscal agents return the canceled bonds and coupons to the State Treasurer. The Treasurer's Office verifies the fiscal agents' statements of account to the canceled bonds and interest coupons returned. Because bonds and interest coupons are not always redeemed when they become due, the fiscal agent may have cash balances of State funds on hand.

Arbitrage

The Federal Tax Reform Act of 1986 requires the rebate of arbitrage on certain bonds when the proceeds are held longer than a temporary period specified by tax law. The amount of rebate is the difference between actual interest earned and the allowable interest. Rebates are due at the end of every computation period (normally every fifth bond year) until the bonds are retired.

When paying less than 100% of the rebate charge, installments are due 60 days after the computation period. Each installment must be in an amount that when added to the future value of previous rebate payments made for the issue, equals at least 90% of the rebate charges as of the computation date (the fifth bond year). The final installment is due 60 days after the date the last bond of the issue is discharged. The final installment must be paid in an amount that, when added to the future value of previous rebate payments made for the issue, equals 100% of the rebate charges as of the last computation date, plus any income attributable to rebate charges.

Personnel at the Department of Finance perform arbitrage calculations. Calculations are usually performed at the end of the computation period, and any liability is usually paid at this time. Calculations may also be performed at interim dates before the rebate is due. Since computation periods or interim dates may not coincide with the end of the fiscal year, the rebate liability as of the end of the fiscal year is only an estimate obtained from the most current arbitrage rebate calculation report. The liability will not necessarily be the rebate paid in the future, since the rebate calculation will have to be updated to reflect cumulative interest earned to the end of the computation period. There were no bond issues with arbitrage due as of September 30, 2020.

Alabama Incentives Financing Authority Reserve Funds

When the Series 2009-B, Series 2019-A, and 2019-B Bonds were issued, the Official Statements required reserve funds to be created for these bonds. The State Treasurer is the custodian and disbursing agent for the reserve funds, which are kept in interest-bearing checking accounts.

The 2009-B Taxable Reserve Fund (1229) had a cash balance of \$8,794,089.28 at September 30, 2020. The 2012-A Acquisition Fund (1619) had a cash balance of \$719,322.12 at September 30, 2020. The 2019-A Reserve Fund (1744) had a cash balance of \$2,107,107.91 at September 30, 2020. The 2019-B Reserve Fund (1745) had a cash balance of \$12,048,598.69 at September 30, 2020.

Alabama 21st Century Authority Reserve Funds

When the Series 2012-A Bonds were issued, the Official Statements required reserve funds to be created for these bonds. The State Treasurer is the custodian and disbursing agent for the reserve funds, which are kept in interest-bearing checking accounts. The 2012 Bond Fund (1600) had a cash balance of \$382,052.36 at September 30, 2020. The 2012 Reserve Fund (1601) had a cash balance of \$15,644,199.15 at September 30, 2020. The 2012 Annual Excess Fund (1607) had a cash balance of \$3,512,463.85 at September 30, 2020.

Interest Rate Swap Agreement – Alabama State Port Authority (ASPA)

In December 2002, the Alabama State Port Authority (ASPA) entered into a “swaption contract” with an investment company relating to its Series 1996 bonds. The swaption gave the counterparty the option to enter into a variable-to-fixed interest rate swap at a specified future date. The counterparty exercised its option on July 18, 2006; therefore, the interest rate swap commenced on October 1, 2006 with the ASPA paying a fixed interest rate of 5.38% and the ASPA receiving a variable interest rate of 67% of the one-month LIBOR. The swap agreement is based on a notional amount of \$15,555,000.00 and expires on October 1, 2021. Upon exercising of the option by the counterparty, the ASPA issued variable-rate refunding bonds in an amount sufficient to refund the fixed rate Series 1996 bonds. At September 30, 2020, the swaption had a negative fair market value of \$423,385.00.

Alabama Public School and College Authority (APSCA) Series 2009-D Qualified School Construction Bonds (QSCB); APSCA Series 2010 Qualified School Construction Bonds (QSCB); and APSCA Series 2011-A Qualified Zone Academy Bonds (QZAB)

The State Treasurer is not the paying agent for the APSCA Series 2009-D Qualified School Construction Bonds; the APSCA Series 2010 Qualified School Construction Bonds (QSCB); or the APSCA Series 2011-A Qualified Zone Academy Bonds (QZAB). Wells Fargo Bank, N.A. is the paying agent. The APSCA Series 2009-D QSCB were issued on December 16, 2009 for \$145,880,000. The APSCA Series 2010 QSCB were issued on September 8, 2010 for \$154,727,000. The APSCA Series 2011-A QZAB were issued on May 17, 2011 for \$51,270,000. Only one principal payment will be made for each Bond Issue – the APSCA Series 2009-D Qualified School Construction Bonds will mature on December 15, 2025, and the full \$145,880,000 of principal will be paid at that time; the APSCA Series 2010 Qualified School Construction Bonds will mature on September 1, 2027, and the full \$154,727,000 of principal will be paid at that time; the APSCA Series 2011-A Qualified Zone Academy Bonds will mature on May 1, 2026, and the full \$51,270,000 of principal will be paid at that time.

In order to accumulate the \$145,880,000, \$154,727,000, and \$51,270,000 principal amounts, sinking funds were set up at Wells Fargo Bank, N.A., and the Authority will make annual principal payments into the sinking funds.

For the APSCA Series 2009-D QSCB, the Authority will make cumulative sinking fund deposits with the paying agent/registrant (Wells Fargo Bank, N.A.) for the Bonds in December in each of the years and in the respective amounts: \$7,591,769.02 each year from 2011 to 2025, starting on December 15, 2011 (this totals \$113,876,535.30). The Authority expects to enter into a repurchase agreement with Bayerische Landesbank for the investment of the cumulative sinking fund deposits. Based upon an investment return rate assumption of 3.40%, approximately \$32,003,465 will be available to offset the cumulative sinking fund deposit on the final maturity date of the bonds.

The APSCA Series 2009-D QSCB will bear interest at a rate of 1.865% per annum and such interest will be payable quarterly on June 15, 2010, and quarterly on each September 15, December 15, March 15, and June 15, thereafter until maturity or prior redemption. Additionally, the owner of the bonds will be eligible to receive federal tax credits determined at the tax credit rate set forth on the cover page (5.76%) in accordance with Section 54A of Title 26 of the Internal Revenue Code (page 13 of the Official Statement). Sections 54A and 54F of the Code allow a federal income tax credit to a bondholder who owns a "Qualified School Construction Bond" on a tax credit allowance date. The tax credit allowance dates for the bonds are March 15, June 15, September 15, and December 15, commencing March 15, 2010, as well as the last date a bond is outstanding (page 17 of the Official Statement). The sinking fund had a balance of \$80,548,760.77 at September 30, 2020.

To the extent that 100% of the available project proceeds are not expended for qualified purposes by December 15, 2012, or if an extension of such expenditure period has been received by the Authority from the United States Secretary of Treasury, on a tax credit allowance date that occurs on or before the close of the extended period, the Authority shall redeem the nonqualified bonds (as defined in Section 54A of Title 26 of the Internal Revenue Code) in authorized denominations (rounded up to the next highest authorized denomination) within 90 days after the end of such period, at a redemption price equal to the principal amount of such nonqualified bonds plus any interest accrued to the redemption date, payable from such unexpended proceeds of sale of the bonds held by the Authority (page 7 of the Official Statement). The bonds shall not be subject to defeasance, and the Authority shall not pay or discharge (including through defeasance) all or any portion of the bonds prior to their scheduled maturity dates, except pursuant to the extraordinary mandatory redemption provisions described above (page 13 of the Official Statement).

For the APSCA Series 2010 QSCB, no Official Statement was prepared for these bonds; instead, a Bond Resolution and a Request for Proposal were prepared. The American Recovery and Reinvestment Act of 2009 granted a national allocation of \$11 billion to provide for the issuance of qualified school construction bonds. The APSCA Series 2010 QSCB are being issued pursuant to the authorizing acts for the purpose of making loans to certain local boards to finance capital expenditures authorized by the authorizing acts and the Internal Revenue Code and approved by the Authority and the State Superintendent of Education (page 6 of the Request for Proposal).

A sinking fund was set up with Wells Fargo Bank, N.A., in which the State of Alabama will make annual \$6,895,316.91 principal payments into the sinking fund at Wells Fargo Bank, N.A. (starting on September 1, 2011), and Wells Fargo Bank, N.A. will only make one principal payment of \$154,727,000 on September 1, 2027. The sinking fund is expected to earn approximately \$37,506,613 of interest between September 1, 2011 and September 1, 2027 to come up to the \$154,727,000 amount. The State of Alabama has been making semi-annual interest payments every year of \$3,984,220.25 (\$7,968,440.50 annually) which started March 2011 (the first interest payment was slightly lower – \$3,829,278.35 – as slightly less than 6 months of interest was paid at that time) and the Authority filed with the IRS to receive an interest subsidy of \$3,651,557.20 semi-annually (\$7,303,114.40 annually) that reduced its interest costs.

For the APSCA Series 2010 QSCB, bank accounts were set up in the 2011 fiscal year, as the first interest payment was deposited in the bank in March 2011, and the principal payments were deposited in the sinking fund in September 2011, September 2012, September 2013, September 2014, September 2015, September 2016, September 2017, September 2018, September 2019, and September 2020 as required. The balance of the sinking fund is \$80,367,319.84 at September 30, 2020.

For the APSCA Series 2011-A QZAB, a sinking fund was set up in May 2011, and it had activity in the 2012 fiscal year as the first interest payment was made on November 1, 2011. This sinking fund is with Wells Fargo Bank, N.A., in which the State of Alabama has been making annual \$2,568,402.10 principal payments into the sinking fund at Wells Fargo Bank, N.A. (since May 1, 2012), and Wells Fargo Bank, N.A., will only make one principal payment of \$51,270,000 on May 1, 2026. The sinking fund is expected to earn approximately \$12,743,969 of interest between May 1, 2012 and May 1, 2026 to come up to the \$51,270,000 amount. The State of Alabama will also make semi-annual interest payments every year of \$1,179,210.00 (\$2,358,420.00 annually) starting in November 2011 (the first interest payment was slightly lower – \$976,123.83) and the Authority filed with the IRS to receive an interest subsidy of \$1,179,210.00 semi-annually (\$2,358,420.00 annually) that reduced its interest costs. The required \$2,568,402.10 principal amount was deposited in the sinking fund on April 26, 2013 as required, and it was moved to Bayerische Landesbank investments on May 1, 2013, along with the required \$2,568,402.10 deposits in April 2014, 2015, 2016, 2017, 2018, 2019, and 2020. Its balance as of September 30, 2020 is \$27,134,289.45.

In February 2009, as part of the American Recovery and Reinvestment Act of 2009, the United States Congress added Sections 54A and 54E to the Internal Revenue Code of 1986, as amended. Sections 54A and 54E authorize state or local governments to issue bonds for certain qualified purposes to benefit public schools (or academic programs within a public school) that are established by and operated under the supervision of certain eligible local education agencies to provide education and training below the postsecondary level. Those qualified purposes are (i) rehabilitating or repairing qualified public school facilities, (ii) providing equipment for use at such qualified public school facilities, (iii) developing course materials for education to be provided at such qualified public school facilities, and (iv) training teachers and other school personnel at such qualified public school facilities; provided however, that the proceeds of the Series 2011-A Bonds shall only be used for qualified purposes as described in (i) and (ii) above. The public schools that are established or operated by an eligible local education agency are referred to in the Code as “qualified zone academies”, and the bonds issued with respect to a qualified zone academy are referred to as “Qualified Zone Academy Bonds” (QZABs). Interest on QZABs is not excludable from gross income of the holders thereof for federal income tax purposes under the Internal Revenue Code (page 5 of the Series 2011-A and Series 2011-B Official Statement).

The Authority has designated the Series 2011-A Bonds as Qualified Zone Academy Bonds (QZABs) pursuant to the provisions of Section 54E of the Internal Revenue Code (page 5 of the Series 2011-A and Series 2011-B Official Statement).

Conduit Debt

The multi-family bonds of the Alabama Housing Finance Authority were reclassified as conduit debt in the 2010 fiscal year, as they are not debts of the State of Alabama or the Alabama Housing Finance Authority, and the beginning balance was restated at that time. This practice has continued into the 2020 fiscal year. The single-family bonds of the Alabama Housing Finance Authority are not reported as conduit debt.

The amounts of principal and interest due in future years for the conduit debt are as follows:

Fiscal Year Ending	Principal	Interest	Total
September 30, 2021	\$11,802,000.00	\$ 1,902,000.00	\$ 13,704,000.00
2022	1,055,000.00	1,950,000.00	3,005,000.00
2023	11,781,000.00	1,826,000.00	13,607,000.00
2024	1,015,000.00	1,711,000.00	2,726,000.00
2025	1,064,000.00	1,672,000.00	2,736,000.00
2026-2030	11,276,000.00	7,688,000.00	18,964,000.00
2031-2035	17,400,000.00	5,506,000.00	22,906,000.00
2036-2040	35,955,000.00	1,065,000.00	37,020,000.00
Total	<u>\$91,348,000.00</u>	<u>\$23,320,000.00</u>	<u>\$114,668,000.00</u>

Limitations on Debt – State of Alabama

Pursuant to Section 213 of the *Constitution of Alabama 1901*, as amended by Amendment 26 that was ratified by the electorate in 1933 (the Constitutional Budget Amendment), the State is constitutionally prohibited from incurring debt, and the only method by which general obligation debt of the State can be incurred is by an amendment to the *Constitution of Alabama 1901*. Although conventions proposed by the legislature and approved by the electorate may be called for the purpose of amending the *Constitution of Alabama 1901*, all amendments have historically been adopted through a procedure which requires them to be proposed by a favorable vote of three-fifths of all the members of each house of the Legislature and thereafter approved by a majority of the voters of the State voting in a statewide election. All general obligation bonds were issued pursuant to an amendment to the *Constitution of Alabama 1901*, which was approved by the voters of the State at an election duly called and held, as hereinbefore indicated. The bondholders are not protected by any covenant of the State restricting the issuance of additional general obligation debt, and the bondholders do not have any right to enjoin the creation of such debt.

The Supreme Court of Alabama has held that the debt prohibition contained in the Constitutional Budget Amendment does not apply to obligations incurred for current operating expenses payable during the current fiscal year, debts incurred by separate public corporations, or State debt incurred to repel invasion or suppress insurrection. The State may also make temporary loans not exceeding \$300,000.00 to cover deficits in the state treasury. Limited obligation debt may be authorized by the Legislature without an amendment to the *Constitution of Alabama 1901*. The State has followed the practice of financing certain capital improvements programs, such as highways, education, and improvements to the State Docks, through the issuance of limited obligation bonds payable solely out of certain taxes and other revenues specifically pledged for their payment and not from the general revenues of the State. Such limited obligation bonds are not general obligations of the State, and the full faith and credit of the State are not pledged to the payment thereof.

Authorities Authorized to Issue Bonds

Numerous Authorities have been set up to issue bonds. The State Treasurer is sometimes a voting member of the Authority, and is sometimes a non-voting member but listed as treasurer of the Authority. As the *Code of Alabama 1975* does not always differentiate whether the State Treasurer is a voting or non-voting member, the State Treasurer has been included whenever he/she is listed as an Authority member. The following Authorities have been created to issue bonds (some of which have bonds that are outstanding, and some of which have issued bonds in the past that have been fully paid, and some that have not issued bonds yet):

Authority Name	Authority Members	Code of Alabama 1975, Sections
Alabama Agricultural Development Authority	<ul style="list-style-type: none"> a. One member appointed by the Speaker of the House of Representatives b. One member appointed by the President Pro Tempore of the Senate c. Two members appointed by the Governor d. Commissioner of Agriculture and Industries (Ex Officio) e. (1) Bond Ratings

Bond ratings are current assessments of the credit worthiness of the obligor with respect to a specific obligation. The ratings are based on information furnished by the issuer or obtained by the rating company from sources it considers reliable. The quality of most bonds is not fixed and steady over a period of time, but tends to undergo change. For this reason the ratings are subject to change, due to changes in or unavailability of such information, or for other circumstances.

The ratings shown above are those that were initially assigned to the bonds. The ratings symbols include AAA, AA, A, BBB, BB, B, CCC, CC, C, and D (D – only S & P), with the “A” group being the highest rated and the “C” group being the lowest rated. S & P’s D rating indicates a bond in default. Moody’s uses a combination of upper and lower case letters. Most bonds issued by the State or any of its authorities and agencies are rated in the “A” group, and there have been no instances in which the rating of a bond was downgraded. The following is a key to the ratings.

S & P's	Moody's	Key
AAA	Aaa	Bonds rated AAA and Aaa are judged to be of the best quality. They carry the smallest degree of investment risk. Capacity to pay interest and repay principal is extremely strong.
AA	Aa	Bonds rated AA and Aa are judged to be high quality by all standards. AA and Aa debt has a very strong capacity to pay interest and repay principal and differs from the higher rated issues only in small degrees.
A	A	Bonds rated A have a strong capacity to pay interest and repay principal, although they are somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than debt in higher rated categories.
BBB	Baa	Bonds rated BBB and Baa are regarded as having an adequate capacity to pay interest and repay principal. Whereas it normally exhibits adequate protection parameters, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity to pay interest and repay principal for debt in this category than in higher rated categories.
(+), (-)		Standard and Poor's rating from "AA" to "B" may be modified by the addition of a plus or minus sign to show relative standing within the major rating categories. The Fitch Company uses a similar rating system as Standard and Poor’s.
	1, 2, & 3	Moody's applies numerical modifiers, 1, 2, and 3 in each generic rating classification from "Aa" through "B" to show relative standing within the major rating categories, with 1 being the highest rating.

Additional Information

Purpose of Bonds

Issuance costs as reflected in the summary of the bond issue do not always agree with the amounts reported as issuance costs in the Uses of Funds table. This is because some Official Statements break out the various issuance costs such as underwriter's discount, issuance premium, or other uses of funds. Total issuance costs include costs of issuance, underwriter's discounts, insurance premiums, and origination fees.

Purpose of Bonds

Revenues Pledged for Payment

Under the *Constitution of Alabama 1901* and laws of the State, the Series 2018-A, 2018-B, and 2018-C Bonds shall be direct and general obligations of the State, and the full faith and credit of the State of Alabama are irrevocably pledged for the prompt and faithful payment of the principal of and interest on the bonds. The Authorizing Amendment further provides that moneys in the Alabama Capital Improvement Trust Fund are appropriated for the payment of debt service of general obligation bonds authorized for various purposes by the Authorizing Amendment. In addition, the Authorizing Amendment provides that moneys in the Alabama Capital Improvement Trust Fund (i) are thereby appropriated to pay debt service on up to \$75,200,000 aggregate principal amount on general obligation bonds authorized by Amendment Numbers 618, 619, and 620 to the Constitution, and (ii) may be appropriated by the Governor or by the Alabama Legislature for paying the cost of general obligation bonds issued under the Authorizing Amendment. By the terms of the Authorizing Amendment, interest earnings on moneys deposited in the Alabama Capital Improvement Trust Fund are deposited into the General Fund of the State Treasury. Amendment 887 further provides that so much as shall be necessary of all Oil and Gas Royalty Payments received during any fiscal year are required to be paid into the Alabama Capital Improvement Trust Fund to pay the principal and interest on bonds issued pursuant to such amendment for improvements to the State's National Guard armories. Amendment 887 authorizes the issuance of up to \$50 million of bonds for National Guard Armory Improvements, and the Series 2018-C Bonds are the second series of bonds issued under Amendment 887 (the first series of such bonds being the State's \$26,695,000 General Obligation Bonds, Series 2016-B) (from pages 6-7 of the Official Statement).

Revenues Pledged for Payment

The Series 2019 Bonds are limited obligations of the Authority payable solely from and secured by a pledge and assignment of, so much of the proceeds of the State's allocable share of the Net TVA (Tennessee Valley Authority) payments as may be necessary to pay debt service on the Series 2019 Bonds. In addition, the Authority and the State have entered into a Funding Agreement. Under federal law, the Tennessee Valley Authority ("TVA") is required to make certain payments in lieu of taxes (the "TVA Payments") directly to states and local governments in which the power operations of TVA are carried on. TVA has made these payments to the State since 1933. The TVA Payments made to the State are distributed to various counties in Alabama that are served by TVA according to a formula that takes into account power sales revenue generated in each such county and the book value of TVA property located in each such county. The State retains approximately 17% of the total TVA Payments and remits the remainder to the counties served by TVA (page 10 of the Official Statement).

Purpose of Bonds

As additional security for the benefit of the Senior Bonds (2019-A), the State has entered into an Agreement Respecting Alternative Revenue Sources dated September 24, 2009 as supplemented by a First Supplemental Funding Agreement to be dated as of the date of the delivery of the Series 2019 Bonds (the “Senior Funding Agreement”) pursuant to which it has covenanted that (a) in the event of a draw on the Series 2019-A Reserve Fund (as hereinafter defined) or Series 2009-B Reserve Fund (as hereinafter defined) because the amount of Pledged Revenues (as hereinafter defined) received by the State is insufficient to pay debt service on the Senior Bonds in a given year, it will make funds available to replenish the Series 2019-A Reserve Fund or Series 2009-B Reserve Fund and (b) it will use its best efforts to obtain an alternative source of funds for the payment of debt service on the Senior Bonds if the amount of Pledged Revenues is insufficient to pay such debt service (from page 1 of the Official Statement).

As additional security for the benefit of the Series 2019-B Bonds, the State has entered into a Funding Agreement dated October 23, 2012, as supplemented by a First Supplemental Funding Agreement to be dated as of the date of delivery of the Series 2019 Bonds (the “Subordinate Funding Agreement”, and together with the Senior Funding Agreement, the “Funding Agreements”), pursuant to which it has covenanted that (a) in the event of a draw on the Subordinate Revenue Fund because the amount of Pledged Revenues received by the State is insufficient to pay debt service on the series 2019-b Bonds in a given year, it will make funds available to replenish the Subordinate Reserve Fund and (b) it will use its best efforts to obtain an alternative source of funds for the payment of debt service on the Subordinate Bonds if the amount of Pledged Revenues is insufficient to pay such debt service (after payment of debt service on the Senior Bonds) (from pages 1-2 of the Official Statement).

Purpose of Bonds

In February 2009, as part of the American Recovery and Reinvestment Act of 2009 (ARRA), the United States Congress added Sections 54A and 54E to the Internal Revenue Code of 1986, as amended. Sections 54A and 54E authorize state or local governments to issue bonds for certain qualified purposes to benefit public schools (or academic programs within a public school) that are established by and operated under the supervision of certain eligible local education agencies to provide education and training below the postsecondary level. Those qualified purposes are (i) rehabilitating or repairing qualified public school facilities, (ii) providing equipment for use at such qualified public school facilities, (iii) developing course materials for education to be provided at such qualified public school facilities, and (iv) training teachers and other school personnel at such qualified public school facilities; provided however, that the proceeds of the Series 2011-A Bonds shall only be used for qualified purposes as described in (i) and (ii) above. The public schools that are established or operated by an eligible local education agency are referred to in the Code as “qualified zone academies”, and the bonds issued with respect to a qualified zone academy are referred to as “Qualified Zone Academy Bonds” (QZABs). Interest on QZABs is not excludable from gross income of the holders thereof for federal income tax purposes under the Internal Revenue Code (page 5 of the Official Statement).

The Authority has designated the Series 2011-A Bonds as Qualified Zone Academy Bonds (QZABs) pursuant to the provisions of Section 54E of the Internal Revenue Code (page 5 of the Official Statement).

There was no Official Statement prepared for these Bonds; instead, a Bond Resolution and a Request for Proposal were prepared.

The American Recovery and Reinvestment Act of 2009 granted a national allocation of \$11 billion to provide for the issuance of qualified school construction bonds. The Bonds are being issued pursuant to the Authorizing Acts for the purpose of making loans to certain Local Boards to finance capital expenditures authorized by the Authorizing Acts and the *Code of Alabama 1975*, and approved by the Authority and the State Superintendent of Education (page 5 of the Bond Resolution).

Proceeds from the Bonds (including investment earnings on the Bond proceeds) will be loaned to local boards of education (the "Local Boards") and applied solely to the construction, rehabilitation or repair of public school facilities (including the acquisition of equipment to be used in such portion or portions of the public school facilities that are being constructed, rehabilitated, or repaired with the proceeds of the Bonds), or the acquisition of land on which such facilities are to be constructed with part of the proceeds of the Bonds, and to payment of certain costs of issuing the Bonds not in excess of two percent of the issue price of the bonds. The Authority reasonably expects that all available project proceeds will be spent for such qualified purposes within three years of the date of issuance of the Bonds, and that a binding commitment with a third party to spent at least 10 percent of such available project proceeds will be incurred within the six month period beginning on the date of issuance of the Bonds. Seventeen (17) local boards of education have requested loans to be funded from proceeds of the bonds (page 16 of the Request for Proposal).

Purpose of Bonds

A Sinking Fund is to be set up with Wells Fargo Bank, N.A., in which the State of Alabama will make annual \$6,895,316.91 principal payments into the Sinking Fund at Wells Fargo Bank, N.A. (starting on September 1, 2011), and Wells Fargo Bank, N.A., will only make one principal payment of \$154,727,000 on September 1, 2027. The Sinking Fund is expected to earn approximately \$37,506,613 of interest between September 1, 2011 and September 1, 2027 to come up to the \$154,727,000 amount. The State of Alabama will also make semiannual interest payments every year of \$3,984,220.25 (\$7,968,440.50 annually) starting in March 2011 (the first interest payment will be slightly lower – \$3,829,278.35) and the Authority is going to file with the IRS to receive an interest subsidy of \$3,651,557.20 semi-annually (\$7,303,114.40 annually) that will reduce its interest costs. There is a provision that if the bond proceeds were not expended fully by 3 years after the closing date that the Bonds would be redeemed (page 18 of the Request for Proposal and page 12 of the Bond Resolution).

Revenues Pledged for Payment

Seventeen (17) local boards of education have requested loans to be funded from proceeds of the bonds (from page 16 of the Request for Proposal). Such loans will be evidenced by obligations issued by the Local Boards in favor of the Authority which will be payable from and secured by pledges of such Local Boards' respective allocable shares of the Capital Outlay Funds or other local funds available to any such Local Board as may be acceptable to the Authority and approved by the Alabama State Superintendent of Education. Although the Authority expects that the revenues pledged by participating Local Boards will be approximately equal to and may be used for payment of debt service on the Bonds, such revenues will not be pledged as security for the Bonds and holders of the Bonds will have no recourse against such revenues (page 16 of the Request for Proposal). Financing Agreements will be signed between the Authority and the entities that receive the money.

Purpose of Bonds

Act Number 2016-469 set up the Alabama Economic Settlement Authority and authorized it to issue bonds. Act Number 2016-469 also set up the BP [British Petroleum] Settlement Fund, which will use BP Settlement revenues to pay the bonds. It also amends legislation relating to the Alabama Trust Fund and the General Fund Rainy Day Account. The AESA is authorized to issue bonds to provide funds to be transferred to and deposited in the Alabama Trust Fund and the General Fund Rainy Day Account of the Alabama Trust Fund (ATF), to provide additional funds to the Alabama Medicaid Agency (AMA), and paying costs of certain transportation projects. Section 21 amends Section 29-10-1 and gives the amounts to be paid back to the ATF each year through 9/30/2033, including the \$238,434,126 by 9/30/2017. Section 8(a)(1) states that the bonds are to be issued to: 1) Repay the General Fund Rainy Day account for \$161,565,874 transferred to the State General Fund in 2010 pursuant to Amendment 803; 2) Repay the Alabama Trust Fund for \$238,434,126 transferred to the State General Fund in Fiscal Years 2013, 2014, and 2015 pursuant to Amendment 856; 3) Provide \$120,000,000 to the Alabama Medicaid Agency to be distributed as \$15 million in 2017 and \$105 million in 2018 – pages 47-48 of the Official Statement required that earnings on the AMA money are to be transferred to the Alabama Trust Fund; 4) The remaining proceeds, not to exceed \$120,000,000 are to supplement existing revenues whether federal, state, or local to be split as \$65 million to the Alabama Department of Transportation (ALDOT) District 91 for Highway 98/Highway 158 from Mississippi to I-65 and \$55 million to ALDOT District 92 [$\$161,565,874 + \$238,434,126 + \$120,000,000 + \$120,000,000 = \$640,000,000$ that can be issued from Section 8(a)(1)]; 5) The remaining proceeds after 1-4 will repay the Alabama Trust Fund for money transferred to the State General Fund in 2013, 2014, and 2015 pursuant to Section 4 of Amendment 856. Section 8(a)(2) states that a Reserve Fund can be also funded with Bond proceeds; thus, more than \$640,000,000 of bonds can be issued. In addition, a 2016-A Capitalized Interest Fund (\$4,046,250) and a 2016-B Capitalized Interest Fund (\$25,534,853.38) were set up to pay interest on the bonds until and including March 15, 2018.

Revenues Pledged for Payment

The State is party to an agreement entered into on October 5, 2015 (the “Settlement Agreement”) among the State, Florida, Louisiana, Mississippi, and Texas (such states, the “Gulf States”) and BP p.l.c., a company incorporated in England (“BP p.l.c.”), BP Corporation North America, Inc., and BP Exploration & Production Inc. (BPXP,” and together with BPCNA and BP p.l.c., the “BP Settlement Agreement Parties”). The Settlement Agreement became effective upon entry of a Consent Decree and Final Judgment in the United States District Court for the Eastern District of Louisiana on April 4, 2016. Under the Settlement Agreement, BPXP is required to pay certain amounts to the State and the other Gulf States as outlined in Attachment I to the Settlement Agreement. All such payments by BPXP are primarily guaranteed by BPCNA and are secondarily guaranteed by BP p.l.c. Although the Settlement Agreement payments to the State are guaranteed by BPCNA and BP p.l.c., the Series 2016 Bonds are not guaranteed by BPCNA, BP p.l.c., or any other BP entities (page 1 of the Official Statement).

Purpose of Bonds

All BP Settlement Revenues received by the State are required to be deposited in the BP Settlement Fund. Pursuant to the Enabling Law, “Appropriated Funds,” being the funds on deposit in the BP Settlement Fund and earnings thereon, are irrevocably pledged and appropriated in such amounts as shall be necessary to pay and to redeem prior to their respective maturities the principal, interest, and premium (if any) on the Series 2016 Bonds and any Additional Bonds. The application of the Appropriated Funds to the payment of such debt service is to be the first use of any moneys in the BP Settlement Fund. Pursuant to the Enabling Law, any amounts in the BP Settlement Fund determined by the Board of Directors of the Authority to be in excess of the amounts needed for the payment of all amounts due with respect to the Series 2016 Bonds and any Additional Bonds each year may be transferred to and deposited in the Alabama Trust Fund or the General Fund Rainy Day Account, to provide additional funds to the Alabama Medicaid Agency, or to pay the costs of certain transportation projects (page 6 of the Official Statement).
